Kohler Vanities

BPIR Declaration

Version: A (12/23)

Designated building product: Class 1

Declaration

Kohler New Zealand Limited has provided this declaration to satisfy the provisions of Schedule 1(d) of the Building (Building Product Information Requirements) Regulations 2022.

Product/system

Name Kohler Vanities
Identifier Toobi II

Description

Kohler Toobi II Vanities are intended for use for personal sanitation in residential & commercial buildings.

Toobi II vanity tops are made from a cast mineral-filled polyester resin with a durable gelcoat surface.

Toobi II vanity cabinets are made from highly moisture resistant plywood, finished with a timber-look laminate. Drawer runners feature soft close & quick release functionality.

The Toobi II vanity range features wall hung models only in 600 & 900mm widths.

Toobi II vanity tops feature an integrated overflow.

Scope of use

For interior installations in residential & commercial buildings.

Waste / drain holes are located either centrally in the vanity top & are compatible with standard DN32 waste outlets.

Hot water must be supplied to this sanitary fixture via adjacent tapware.

Conditions of use

The vanity must be installed in accordance with our supplied instructions. Wall hung models must be fixed to two nogs / studs in the wall.

The vanity top must be sealed to the top of the cabinet per the instructions. The vanity top & cabinet must be sealed to the wall per the instructions.

The tapware & waste must be installed by a Registered Plumber. The maximum temperature of water at the bath outlet is 50 degrees Celsius.

Relevant building code clauses

B2 Durability — B2.3.1 (c)

F2 Hazardous building materials — F2.3.1

G1 Personal Hygiene — G1.3.2

G12 Water Supplies — G12.3.2

Contributions to compliance

B2.3.1(c): Per B2/AS1, Durability Requirements of Nominated Building Elements for Plumbing Fixtures, Kohler Vanities have a durability of at least 5 years, when installed and maintained in accordance with our supplied instructions.

F2.3.1: No materials used in the construction of Kohler Vanities give rise to harmful concentrations at the surface of the material where the material is exposed, or in the atmosphere of any space.

G1/AS1 2.6.1: Kohler Toobi II Vanity Tops comply with the relevant requirements of AS/NZS 1730 (Washbasins).

G12.3.5: Kohler Vanities must be provided with hot water to satisfy the intended usage of personal washing (note - tapware not included).
