Refer to website to sizing for specific models.

All basins feature a glazed ceramic, glass, or enamel finish for ease of cleaning.

**Scope of use**

For interior installations in residential & commercial buildings.

Waste / drain holes are located either centrally or at one end of the basin & are compatible with standard DN32 waste outlets. For the noted basins that do not have an integrated overflow, consider other options in overall bathroom design to contribute to E3 Internal moisture compliance.

Hot water must be supplied to this sanitary fixture via adjacent tapware.

**Conditions of use**

The basin must be installed in accordance with our supplied instructions.

The tapware & waste must be installed by a Registered Plumber. The maximum temperature of water at the bath outlet is 50 degrees Celsius.
