

A woman with long brown hair, wearing a taupe-colored one-piece swimsuit, stands in a shower. She is looking at a row of four brass wall-mounted shower controls. A large, square brass rainfall showerhead is positioned above her, with water cascading down. The shower walls are made of large, light-colored stone tiles. The lighting is warm and soft, creating a luxurious atmosphere.

# About Kohler

## The KOHLER Heritage

The KOHLER Company, founded in 1873, is now the recognised leader in kitchen and bathroom ware known for innovation, technology and design. The company's founder, John Michael Kohler, had a bold idea to increase his customers' quality of life and sense of gracious living.

In 1883, KOHLER put ornamental feet on a cast-iron water trough and sold it as a bathtub. This seemingly simple innovation launched the KOHLER brand as a household name and global plumbing company.

Headquartered in the village of Kohler, Wisconsin, KOHLER is one of the oldest and largest privately held companies in the USA. A company that has grown to international stature, with operations on six continents with more than 50 manufacturing locations and 30,000 associates worldwide.

Taking great strides in product development over the years, KOHLER has continually proven that great products equal beautiful design, ground-breaking innovation and reliable functionality. They offer world-class toilets, showers, bathroom and kitchen tapware, whirlpools, spas, basins and provide you with a lifetime of reliable performance.

From those humble beginnings, the company has grown into a multifaceted global family of brands with a commitment to craft and a willingness to be bold. After four generations, they remain a family-owned company leading the industry and they're bolder than ever.

2022 marked the 149th anniversary of KOHLER.

|  CP  |  BV  |
|  RGD |  TT  |
|  BN  |  2BL |

Note: Not suitable for Artist Edition glass basins. Rose Gold (RGD) and Titanium (TT) wastes available only while stocks last.

## PVD Finishes

Innovation begins from within

KOHLER Click-up Waste finishes are in PVD (Physical Vapour Deposition), a state-of-the-art process which creates a lustrous and durable finish.

The PVD finish occurs inside a vacuum that molecularly bonds the finish to tapware

creating durable, long lasting and authentic finishes in distinctive colours with a lifetime warranty.

In addition, the PVD colour finishes are scratch, tarnish and corrosion resistant – twice exceeding industry standards for finish testing, resulting in a product that is easy to maintain and clean.

Advantages at a glance

- Enhanced corrosion and scratch-resistance
- Lustrous and durable surface for lasting beauty
- Wide variety of colours and materials to accommodate a multitude of styles

### PVD Finishes:

Rose Gold

Titanium

Brushed Bronze

Brushed Nickel

### Also Available (Non-PVD Finishes):

Polished Chrome

Blackened Bronze

# Artist Editions®

Functional works of art, KOHLER Artist Editions decorative basins invite you to create bathroom spaces that reflect your own, very unique style. Skilled artisans work with glass and ceramic, shaping basins with details that honour and accentuate the character of each material. Artist Editions basins weave texture and colour into intricate patterns – each basin a beautiful balance between artistry and form.

*Artist Editions®*  
K O H L E R

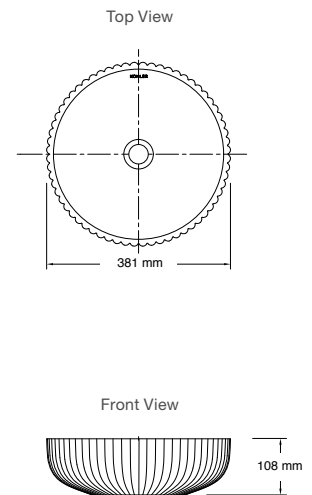

## ARTIST EDITIONS

### Salute Glass Vessel Basin

Like the coupe Champagne glass that inspired its design, the Salute vessel sink makes a statement – celebrating handcrafted artisan authenticity, elegance, and function in the bathroom space. Petite in size, it is ideal for small spaces, with an impression extending well beyond its stature.

#### Includes

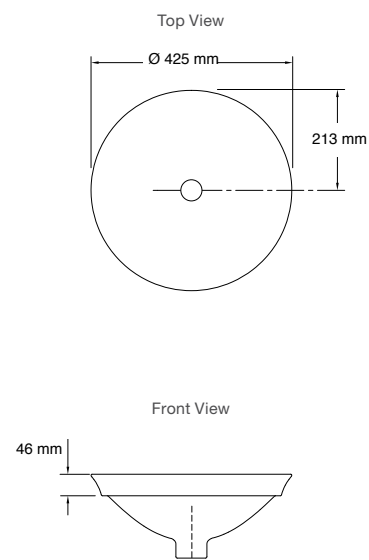

- Bench top cutting template

Code: 28824-B11

## Aureus® Vessel – Round

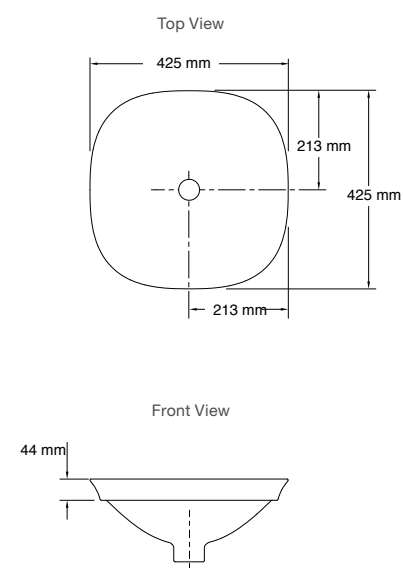

Aureus bathroom sinks fuse historical and natural design inspirations. The detailing features premium gold-coloured veins and real gold accents inspired by the natural beauty of veined marble and the traditional Japanese art of kintsukuroi, which translates as “golden repair”.

### Includes

- Bench top cutting template

Code: 28039-AUR-0

## Aureus® Vessel – Square

Aureus bathroom sinks fuse historical and natural design inspirations. The detailing features premium gold-coloured veins and real gold accents inspired by the natural beauty of veined marble and the traditional Japanese art of kintsukuroi, which translates as “golden repair”.

### Includes

- Bench top cutting template

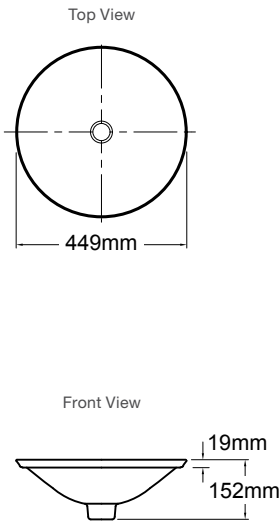

Code: 28038-AUR-0

# ARTIST EDITIONS

## Dutchmaster Self Rimming Basin – Round

Product shown: Midnight Floral.

This Artist Edition basin collection is inspired by the Dutch Masters of the 17th century. Big, bold, lush florals, dramatically enhanced by a deeply dark, moody background, adorn the entire surface of the basin's interior. Available in Midnight Floral and Blush Floral.

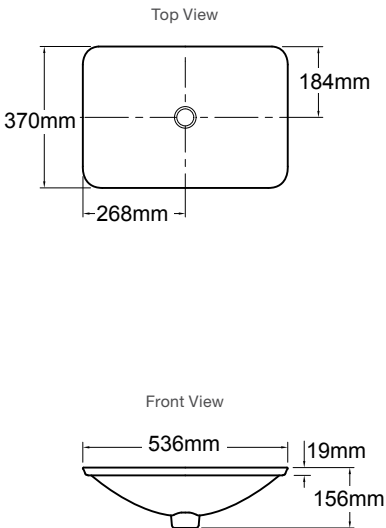

- Includes**
- Bench top cutting template

Blush Floral – Round	Code: 30333-DM1-0
Midnight Floral – Round	Code: 30333-DM2-0

## Dutchmaster Self Rimming Basin – Rectangle

Product shown: Blush Floral.

Big, bold, lush florals, dramatically enhanced by a deeply dark, moody background, adorn the entire surface of the basin's interior. Available in Midnight Floral and Blush Floral.

- Includes**
- Bench top cutting template

Blush Floral – Rectangle	Code: 30334-DM1-0
Midnight Floral – Rectangle	Code: 30334-DM2-0

## Briolette Faceted Glass Vessel Basin

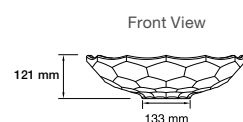

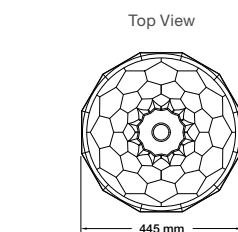

Product shown: Translucent Doe. Tapware not available.

The Briolette glass sink displays a uniquely faceted shape inspired by the precisely cut surfaces of precious stone. Gently curved walls highlight the natural textural qualities of glass and create a striking reflective effect. This sink sits on top of the counter as a brilliant addition to your bath or powder room.

### Includes

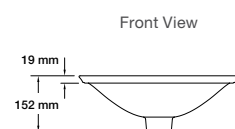

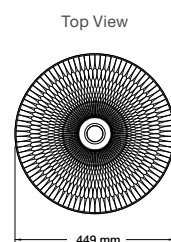

- Waste gasket kit

Ice	Code: 2373-B11
Translucent Dusk	Code: 2373-TG1
Translucent Dew	Code: 2373-TG2
Translucent Doe	Code: 2373-TG3

*Note: Actual basin colours may vary from those depicted here.*

## Derring Wading Pool Self Rimming Basin

Inspired by studio pottery, the Derring collection celebrates the inherent beauty and authenticity of handcrafted ceramics. Each sink is a one-of-a-kind creation, finished with unique artisanal glazes that produce fascinating surface effects. This vessel sink offers a recessed, low-profile installation that sits just above your counter.

### Includes

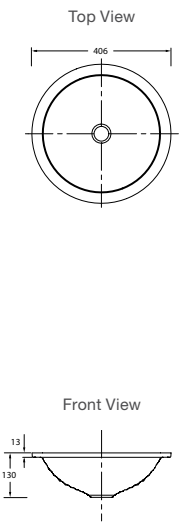

- Bench top cutting template

Code: 17890-RL-RB2

ARTIST EDITIONS

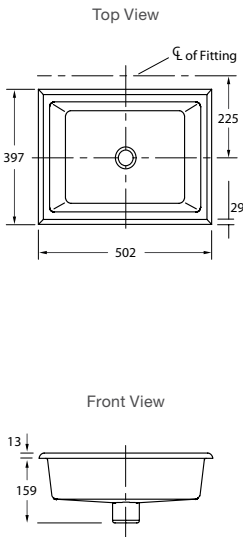

Kallos Spun Glass Under Counter Basin

The Kallos spun glass under counter basin offers a distinctive architectural pattern reminiscent of fine crystal.

- Includes**

Double Slim seat Code: 23623A-0

## Upgrade to an Double Slim Seat

The Veil back to wall toilet brings a stunning European design to complete the Veil suite with modern soft curves and a slim tank lid that sits seamlessly alongside the discreet side lever flush.

Upgrade this total look with the acrylic overlay Double Slim seat, which is designed to capture light and reflect the colour of water, lifting this toilet to a complementary piece of bathroom furniture.

ABOVE: Close up of light-capturing acrylic overlay

RIGHT: Double Slim Seat with acrylic overlay

## Enhance your experience with a Bidet Seat

Elevate your bathroom routine with the C3™-255 French Curve™ elongated bidet toilet seat. It combines comfort and convenience seamlessly, offering five adjustable settings each for wand position, water pressure, water temperature, and seat temperature.

The bidet toilet seat provides both rear-wash and front-wash options, catering to the personal hygiene needs of women, along with the choice between pulsating and oscillating water stream settings. With an antimicrobial seat and a stainless-steel wand, cleanliness is a top priority. Moreover, the French Curve™ seat design provides enhanced comfort and an ergonomic experience.

Code: 22771A-0

LEFT: Partially open Bidet Seat, with remote alongside

Upgrade to an Elite Seat

The KOHLER Elite seat is available as an upgrade on many toilets and has the following unique features:

Nightlight

Lighting activates at night when it detects sound and is powered by 2 x AAA batteries (batteries not supplied with seat).

Refillable Fragrance Dispenser

The deodoriser neutralises bathroom odours with the initial fragrance blister pack containing one of each of the following mixed fragrances: Fresh Laundry, Avocado Spa, Garden Waterfall. Refill fragrance packs are available to purchase.

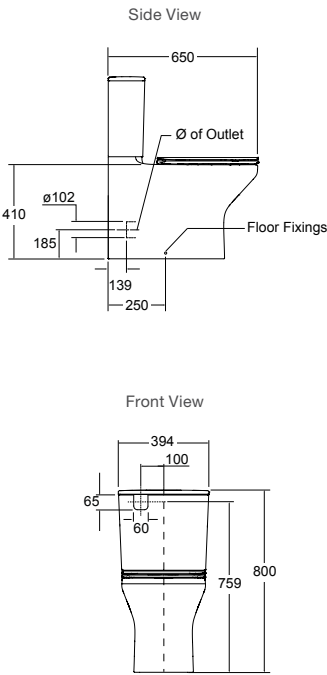

ModernLife Back to Wall Toilet Suite

**Pick the toilet, in-wall cistern and flush plate you want** (all sold separately)

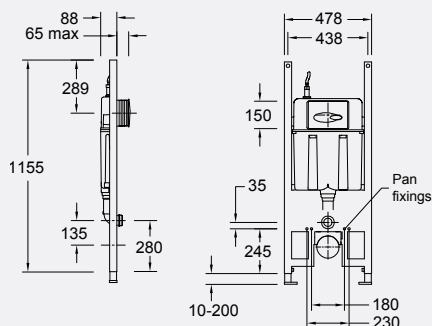

**Step 1** Choose your wall hung or wall faced toilet (pan and seat)

**Step 2** Choose your in-wall cistern

**Mechanical in-wall cistern:** Standard height and fit in a 90mm cavity. The flush plate has to be connected to the in wall cistern so must be positioned in a specific place on the wall above the toilet.

**Pneumatic in-wall cistern:** Available in standard, which fits in a 90mm cavity and low level, which fits in a 150mm cavity. Low level are for use in special installations. Flush plates don't have to be connected to the in-wall tank and can be installed within a 4m radius of the toilet.

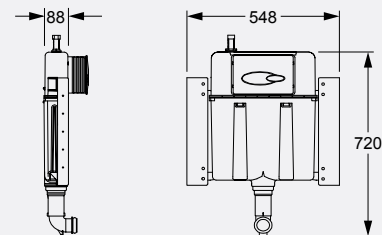

### Wall Hung

Mechanical Wall Hung 90mm standard height

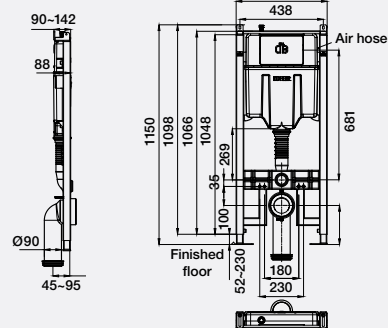

Code: 4179A-NA

### Wall Faced

# TOILETS

## INTELLIGENT TOILETS

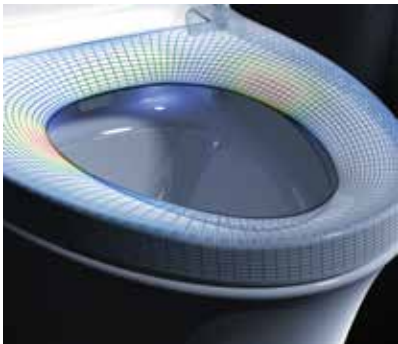

Veil™

The KOHLER studio team initially launched the Veil project to address space saving toileting with ultra-responsive bidet functionality.

With the relatively recent architectural phenomenon of the Cape Town Stadium still fresh, the design team drew on its sculptural simplicity and sophistication to inform the design vernacular of Veil. As a result, Veil marries unexpected artfulness with advanced technology for visual stories and experiential seamlessness. Flipping the popular domed profile on its head, KOHLER designed a slightly bowed seat cover with a very tight corner radius that captures the elegance of precision. The lift at each end is evocative of the lines of a sailing vessel and gives the design a surprising lightness. Combining sleek design with incredible personal comfort and control sets the Veil toilet apart. It is the perfect marriage of technology and art.

Cape Town Stadium

Ergonomic French curve seat

Automated cover and wand

One-touch remote control

Self-cleaning and UV sanitising nozzle

Powerful flushing system

# Tapware & Accessories

The simple act of drawing water is elemental to our well-being, our rituals and how we define ourselves as human beings. KOHLER tapware celebrates that relationship – with beautiful design inside and out, effortless water delivery and water-saving efficiency. In fact, each and every KOHLER tap has a design intent, written to fulfil the rapidly changing requirements of water delivery in the 21st century.

In alignment with the updated Building Code G12/AS1 requirements, all Basin and Kitchen Tapware featured in this catalogue are currently transitioning to lead-free models. This important shift reflects our ongoing commitment to health, safety, and environmental responsibility.

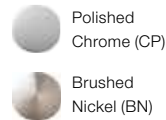

We expect to complete this transition by the end of 2025. Kohler will continue to retain the existing product codes for both Basin and Kitchen Tapware even after the transition is completed, ensuring a seamless and uninterrupted experience for our customers and partners.

## Sensor Taps

Experience the latest in technology and hygiene with this touchless tapware range. Upgrade your bathroom or powder room with versatile sprays, touchless technology, and on-trend designs.

### Avid Duo Deck Mount Sensor Tap & Soap Dispenser

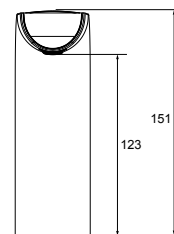

#### Features

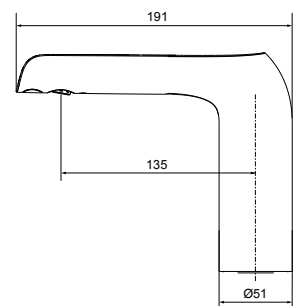

- AC power only (adaptor included)
- KST (Kinesis Sensing Technique) sensor is more accurate than an infra-red sensor
- 1.5L soap bottle capacity installed under-bench
- WELS Rating: 6 Star, 1.6 litres/min

Code: EX29936A-N-CP

Front View

## Add more brilliance to your bathroom space.

Whether design, colour or performance, KOHLER always offers discerning choices for bathroom spaces.

Multiple washing options combine with unique automatic sensors to provide a convenient, hygienic system.

### Invisible sensor technology

A hidden sensor inside the spout brings a consistent and precise experience.

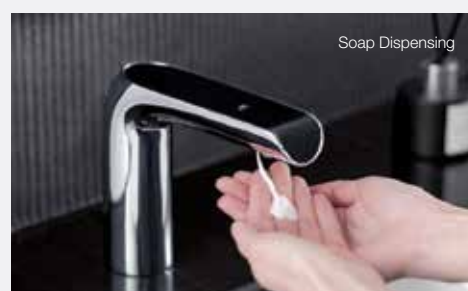

### Water saving technology

Splash-reduction aerator spray ensures both water-saving and a pleasant user experience.

### Avid Duo deck mount sensor tap and soap dispenser

Cutting-edge technology with two-in-one design (water flow & soap dispenser) provides Avid Duo a completely touchless hand-washing experience.

# Mix and match with the Components™ Collection.

Every spout, handle and finish of the Components™ collection is designed to be freely combined with one another to create a signature modern look in the bath. It is a versatile collection that was designed to be designed.

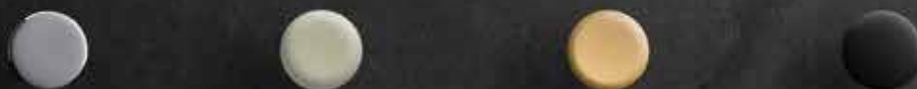

1. Choose your spout.

---

2. Choose your handle.

---

3. Choose your finish.

---

## Designed to be Designed

Components™ is a full collection for the contemporary bathroom that speaks to the many facets of modern design. Every element, from spouts and handles to the accessories that complete the space, is designed to feel like a minimalist piece of modern sculpture.

The collection invites you to design your own signature look by combining a faucet spout with your style of handles. The different spout and handle combinations within this curated collection allow you to bring a touch of personality into the room. Once you have found a style that speaks to your taste, select your finish and bring the entire room together with Components™ showering designs and accessories.

With different combinations creating distinct looks, Components™ is a versatile collection that was designed to be designed. By you.

## Modern Form

Designers paid meticulous attention to every line and angle to create the controlled forms and stark precision of the Components™ collection's spouts.

## Modern Function

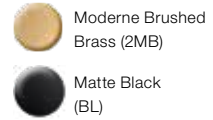

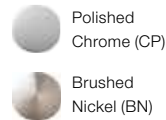

Each handle within the Components™ collection is distinct and features a unique activation with intuitive control.

## TAPWARE & ACCESSORIES

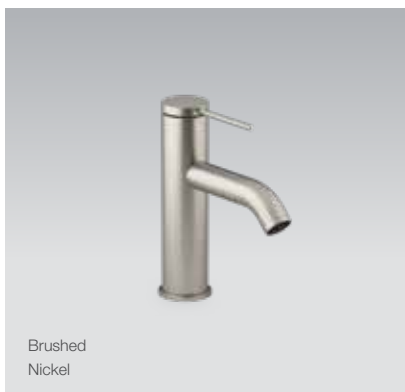

## Components

Create your own signature look by combining a basin or bath spout with your style of handles. Available in four finishes: Polished Chrome, Moderne Brushed Brass, Brushed Nickel and Matte Black.

# Kitchen Sinks & Mixers

Behind the stylish design of KOHLER kitchen sinks and mixers is an exceptional standard of performance and versatility, offering efficient functionality and good looks. The products you choose will enhance your whole kitchen area, so pick ones that will work seamlessly with your overall look, while fulfilling the usages that you want for your own personal requirements.

In alignment with the updated Building Code G12/AS1 requirements, all Basin and Kitchen Tapware featured in this catalogue are currently transitioning to lead-free models. This important shift reflects our ongoing commitment to health, safety, and environmental responsibility.

We expect to complete this transition by the end of 2025. Kohler will continue to retain the existing product codes for both Basin and Kitchen Tapware even after the transition is completed, ensuring a seamless and uninterrupted experience for our customers and partners.

KOHLER

# KITCHEN SINKS

## Cairn™ Faceted Decor Apron Kitchen Sink – 864mm

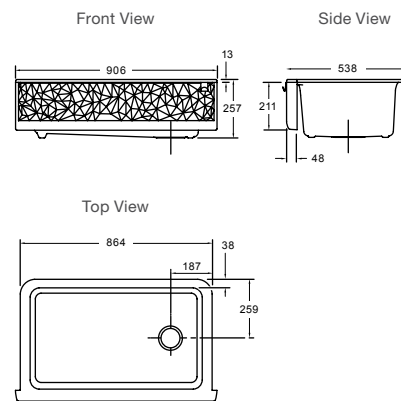

### Features

- Textured geometric faceted design
- Towel hook attached for added convenience when reaching for a tea-towel

# Showering Tapware

Elevate the simple act of showering to a luxurious experience with KOHLER showering products. WELS rated sprayheads provide showering efficiency and Katalyst® technology adds air to the water, creating larger, fuller water droplets that retain heat longer and use less water. Water delivery into your shower is most important to your showering enjoyment. KOHLER showering tapware ensures the perfect showering experience every single time.

# Statement™ & Anthem™ Showering Collections.

### The Evolution of Showering

The Statement showering collection paired with Anthem valves and controls features unexpected designs and indulgent spray options. The versatile portfolios are meticulously crafted, offering endless opportunities to create your ideal showering experience.

## Indulgent Sprays, Inspired Forms: Statement Showering Collection

Statement showering pairs thoughtfully crafted designs with signature spray experiences for wholly immersive environments that drench the body and relax the mind.

## Engineered to Be Extraordinary: Anthem Mechanical Valves and Controls

Acting as the control centre for up to six outlets in the shower, the Anthem collection enables complete command over temperature, volume, spray experiences, and more in a mechanical thermostatic control.

SHOWERING TAPWARE

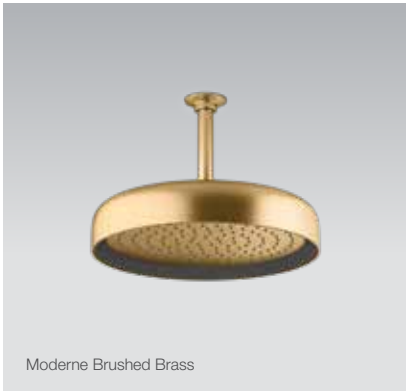

Statement™

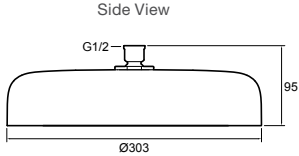

Voluminous forms meet immersive moments in the Statement™ Showering Collection of rainheads, showerheads, handshowers and body sprays.

## HydroRail

Easy access to new shower technology.

Not often is a new, high tech bathroom appliance specifically designed to save the homeowner money while at the same time delivering the very best in water saving showering technology. KOHLER has done just that with its HydroRail shower columns.

A luxurious home-spa showering experience, KOHLER's HydroRail is designed to replace a wall-mounted fixed-head shower. It can be installed in an existing shower space without the expense or inconvenience of having to go 'behind the wall' and change current plumbing.

## HydroRail Slide Shower

Code: 97822T-9E-CP

## Katalyst air-induction technology

KOHLER's Katalyst air-induction technology delivers an indulgent irresistible experience by infusing air into the water for bigger, warmer and more voluptuous water droplets capable to embrace your body like an invigorating rainforest waterfall.

### Bigger drops

The advanced Katalyst air-induction technology maximizes the combination of air and water by infusing 60% more air to generate bigger water drops for enhanced body coverage and comfort.

### Warmer water

The larger air-infused water drops offered by Katalyst air-induction technology retain heat longer, ensuring up to a half degree warmer temperature than conventional showering products.

### Optimised spray

Multiple Katalyst air-induction products also feature Racetrack technology, a patented internal waterway system that provides a consistently powerful full-coverage water spray while reducing wasteful overspray.

## A Catalyst for Change

### Showering Technology that Delivers More Water for Less

Advanced water technology means we can all indulge in a drenching, luxurious, all-enveloping shower safe in the knowledge we are using less water than ever.

Katalyst™ technology introduces 2.2 litres of air into every 9.5 litres of water creating larger, fuller water droplets that retain heat longer.

The unique patented technology of Katalyst™ results in a better cleaning and hair rinsing performance – and an overall indulgent, luxurious experience.

And while the technology is high performance there are no visible changes to the showerhead's exterior and no extra noise.

## Rain Duet Dual Renew Column – Round Showerhead

# Sustainability Initiatives

## Waste Equals Opportunity.

KOHLER announced its Net Zero 2035 policy in 2008 – a commitment to send no solid waste to landfills, reduce water usage each year and offset 100% of its greenhouse gas emissions, all by the year 2035.

### WasteLAB

In 2013, at the company's annual Innovation for Good event, the idea for the KOHLER WasteLAB was conceived.

This initiative initially focused attention on its landfill-bound pottery cull – essentially broken pieces from its toilet-making process – and how it could be re-purposed into something both beautiful and useful.

Ann Sacks, visionary tile designer, came on board and together the two brands created the Crackle Collection.

After the clay is pressed, WasteLAB artisans hand-cut each tile, remove the excess and apply an interactive glaze. The result is a delicate crackle glaze and deep, rich colour in a variety of tile shapes and sizes.

The KOHLER WasteLAB is currently exploring ways of recycling spent foundry sand, waste glaze and enamel powder and foundry dust that is made up of fine particles of sand, coal, clay, grinding dust and rust.

### Producing Energy

Looking to alternate energy sources will help us reach our goal of NetZero greenhouse gas (GHG) emissions by 2035. One such source is solar energy.

We have facilities all over the world. Our Spartanburg, South Carolina, facility averages 225 days of sunshine each year. More than 4,000 panels produce 1,000 kilowatts of power for the Spartanburg plant. Thanks to the panels, we can reduce the amount of power supplied by our local utility by nine percent.

In Beijing, China, nearly 650 solar panels generate 170,000 kilowatt hours of energy per year.

The electricity needs of all of KOHLER's US and Canadian operations will be met by wind farms in Kansas. Known for its open plains and strong winds, Kansas is an ideal location for generating wind energy.

We're also investing in energy-efficient kilns, heat recovery systems, and several solar installations.

### Safe Water

One-third of the world's population lives without safe water, a situation KOHLER finds totally unacceptable. The company partnered with the Bill and Melinda Gates Foundation's Safe Drinking Water Campaign to develop a ceramic water filtration system called KOHLER Clarity.

Each Clarity unit filters out more than 99% of bacteria and protozoa, providing up to 40 litres of safe water each day – enough clean drinking water for a family of four. Given the incidence of water-borne illnesses can be reduced by 45 per cent through safe drinking water – and safe storage – the KOHLER Clarity is a life-changing development.

The KOHLER Clarity units are lightweight and easily transportable with low-cost replaceable filters that can clean up to 5000 litres of water. These units have already helped countless numbers of people in many developing countries.

1873

**Kohler Co. founded**

John Michael Kohler, 29, an Austrian immigrant purchased a small local foundry. Originally the foundry manufactured agricultural implements and ornamental iron pieces.

1883

**Horse trough to bathtub**

John Michael Kohler takes a horse trough, heats it up to 925°C, covers it with enamel powder and furnishes it with four legs and ornamental feet, to serve as the first KOHLER bathtub.

1900

**Innovative enamelware**

KOHLER production of innovative enamelware – baths, pedestal basins, toilets, urinals and drinking fountains – begins and soon comprises most of the company's business.

1926

**Introducing tapware**

KOHLER begins manufacturing tapware to coordinate with fixtures. In 1927, KOHLER produced enameled bathtubs and vitreous china toilets and basins in matching pastel colours – an industry first.

1929

**Exhibit at New York Met**

KOHLER black plumbing fixtures are exhibited at The Metropolitan Museum of Art in New York City.

1965

**The Bold Look of KOHLER**

Launch of THE BOLD LOOK OF KOHLER, an extensive advertising campaign and array of exciting new products in vivid accent colours.

1985

**Artist Editions**

Inspired by decorated plumbing basins created by resident artists in the company pottery, KOHLER introduces Artist Editions, a portfolio of surface-decorated basins that make a striking statement.

2000

**Gracious living**

Sharing the philosophy of gracious living with the world, the company expands beyond the United States into Europe, Asia and Australasia.

2005

**Purist Hatbox launches**

With its clean minimalist design, the Purist Hatbox toilet opens the door to a new era of possibilities for making design statements in the home.

2006

**Nature's Chemistry**

KOHLER's Nature's Chemistry basin collection exhibits a craftsman's skill in the use of glass, stone and bronze, to embrace the raw, elemental qualities of natural materials, resulting in fully functional and visually stunning works of art.

2008

**Launch of Karbon**

KOHLER continues to lead in design, inspiration and innovation with the introduction of the Karbon articulating kitchen mixer tap, garnering global interest.

2011

**Numi marks new era**

KOHLER's most advanced toilet, Numi, launches globally. From its striking form and features to its unrivaled water efficiency, the Numi toilet marks a new standard of excellence in the bathroom.

2015

**Behold the Future**

KOHLER launches Veil, an 'intelligent' integrated toilet with bidet. Meticulously designed, Veil offers stunning contemporary lines and the ultimate in individual comfort.

2023

**150 years of KOHLER**

KOHLER celebrates 150 years of cutting-edge design.

2035

**Environmental Sustainability**

KOHLER is committed to reduce our carbon and solid waste footprint by 3% annually to achieve NET ZERO by 2035. We are also developing innovative energy and water saving products and helping people to take action.
