About Kohler

The KOHLER Heritage

The KOHLER Company, founded in 1873, is now the recognised leader in kitchen and bathroom ware known for innovation, technology and design. The company's founder, John Michael Kohler, had a bold idea to increase his customers' quality of life and sense of gracious living.

In 1883, KOHLER put ornamental feet on a cast-iron water trough and sold it as a bathtub. This seemingly simple innovation launched the KOHLER brand as a household name and global plumbing company.

Headquartered in the village of Kohler, Wisconsin, KOHLER is one of the oldest and largest privately held companies in the USA. A company that has grown to international stature, with operations on six continents with more than 50 manufacturing locations and 30,000 associates worldwide.

Taking great strides in product development over the years, KOHLER has continually proven that great products equal beautiful design, ground-breaking innovation and reliable functionality. They offer world-class toilets, showers, bathroom and kitchen tapware, whirlpools, spas, basins and provide you with a lifetime of reliable performance.

From those humble beginnings, the company has grown into a multifaceted global family of brands with a commitment to craft and a willingness to be bold. After four generations, they remain a family-owned company leading the industry and they're bolder than ever.

2022 marked the 149th anniversary of KOHLER.

Finishes

PVD Finishes

Innovation begins from within

KOHLER Click-up Waste finishes are in PVD (Physical Vapour Deposition), a state-of-the-art process which creates a lustrous and durable finish.

The PVD finish occurs inside a vacuum that molecularly bonds the finish to tapware

creating durable, long lasting and authentic finishes in distinctive colours with a lifetime warranty.

In addition, the PVD colour finishes are scratch, tarnish and corrosion resistant – twice exceeding industry standards for finish testing, resulting in a product that is easy to maintain and clean.

Advantages at a glance

- Enhanced corrosion and scratch-resistance
- Lustrous and durable surface for lasting beauty
- Wide variety of colours and materials to accommodate a multitude of styles

PVD Finishes:

Rose Gold

Titanium

Brushed Bronze

Brushed Nickel

Also Available (Non-PVD Finishes):

Polished Chrome

White

Blackened Bronze

Artist Editions®

Functional works of art, KOHLER Artist Editions decorative basins invite you to create bathroom spaces that reflect your own, very unique style. Skilled artisans work with glass, stone and bronze, shaping basins with details that honour and accentuate the character of each material. Artist Editions basins weave texture and colour into intricate patterns – each basin a beautiful balance between artistry and form.

A HISTORY OF ART

THE BOLD LOOK OF KOHLE

Fresh Up

ARTIST EDITIONS

Dutchmaster Self Rimming Basin – Round

Product shown: Midnight Floral.

Introducing the Dutchmaster Collection, the latest collection of Artist Edition basins inspired by the Dutch Masters of the 17th century. Big, bold, lush florals, dramatically enhanced by a deeply dark, moody background, adorn the entire surface of the basin's interior. Available in Midnight Floral and Blush Floral.

Includes

- Bench top cutting template

Blush Floral – Round

RRP: **\$2929** Code: 30333-DM1-0

RRP: **\$2929** Code: 30334-DM2-0

Briolette Faceted Glass Vessel Basin

Product shown: Ice.

The Briolette glass sink displays a uniquely faceted shape inspired by the precisely cut surfaces of precious stone. Gently curved walls highlight the natural textural qualities of glass and create a striking reflective effect. This sink sits on top of the counter as a brilliant addition to your bath or powder room.

Includes

- Waste gasket kit

Derring Wading Pool Self Rimming Basin

Inspired by studio pottery, the Derring collection celebrates the inherent beauty and authenticity of handcrafted ceramics. Each sink is a one-of-a-kind creation, finished with unique artisanal glazes that produce fascinating surface effects. This vessel sink offers a recessed, low-profile installation that sits just above your counter.

Bathroom Furniture

KOHLER bathroom furniture offers creative storage ideas, helping you keep this important room clear and tidy. Whether you are updating a small powder room, a large family bathroom or an ensuite, nothing changes the way a bathroom looks and functions quite like a new vanity. As a multi-functional centerpiece of your bathroom's decor, your vanity should offer the perfect balance of style and function.

Pick the toilet, in-wall cistern and flush plate you want (all sold separately)

Step 1 Choose your wall hung or wall faced toilet (pan and seat)

Step 2 Choose your in-wall cistern

Mechanical in-wall cistern: Standard height and fit in a 90mm cavity. The flush plate has to be connected to the in wall cistern so must be positioned in a specific place on the wall above the toilet.

Pneumatic in-wall cistern: Available in standard, which fits in a 90mm cavity and low level, which fits in a 150mm cavity. Low level are for use in special installations. Flush plates don't have to be connected to the in-wall tank and can be installed within a 4m radius of the toilet.

TOILETS

Veil™

The KOHLER studio team initially launched the Veil project to address space saving toileting with ultra-responsive bidet functionality.

With the relatively recent architectural phenomenon of the Cape Town Stadium still fresh, the design team drew on its sculptural simplicity and sophistication to inform the design vernacular of Veil. As a result, Veil marries unexpected artfulness with advanced technology for visual stories and experiential seamlessness. Flipping the popular domed profile on its head, KOHLER designed a slightly bowed seat cover with a very tight corner radius that captures the elegance of precision. The lift at each end is evocative of the lines of a sailing vessel and gives the design a surprising lightness. Combining sleek design with incredible personal comfort and control sets the Veil toilet apart. It is the perfect marriage of technology and art.

Tapware & Accessories

The simple act of drawing water is elemental to our well-being, our rituals and how we define ourselves as human beings. KOHLER tapware celebrates that relationship – with beautiful design inside and out, effortless water delivery and water-saving efficiency. In fact, each and every KOHLER tap has a design intent, written to fulfil the rapidly changing requirements of water delivery in the 21st century.

Mix and match with the Components™ Collection.

Every spout, handle and finish of the Components™ collection is designed to be freely combined with one another to create a signature modern look in the bath. It is a versatile collection that was designed to be designed.

1. Choose your spout.

2. Choose your handle.

3. Choose your finish.

TAPWARE & ACCESSORIES

Components

Create your own signature look by combining a basin or bath spout with your style of handles. Available in four finishes: Polished Chrome, Moderne Brushed Brass, Brushed Nickel and Matte Black*.

*Matte Black finish not available until late 2022

Malleco™

A truly state-of-the-art touchless kitchen mixer.

The Malleco touchless kitchen mixer frees your hands so you can speed through cooking and cleanup tasks while enjoying a cleaner, more hygienic kitchen environment.

Intuitive Response® technology is in tune with your every move: a simple wave of your hand activates flow. Includes 4-minute sensor shutoff to prevent excess water use, and available with both battery powered and plug-in AC adapter.

Touchless operation

Reliable touchless on/off operation through fast and accurate sensor under spout arch (within milliseconds).

Two-function spray head

Touch control switches stream and sweep sprays, delivering a powerful blade removing excess waste.

Secure Docketik® docking

Sprayhead securely locks into place, while high spout arch allows for maximum dish clearance.

Effortless control

Premium swivel ball joint on sprayhead allows for easy use and full range of motion.

Showering Tapware

Elevate the simple act of showering to a luxurious experience with KOHLER showering products. WELS rated sprayheads provide showering efficiency and Katalyst technology adds air to the water, creating larger, fuller water droplets that retain heat longer and use less water. Water delivery into your shower is most important to your showering enjoyment. KOHLER showering tapware ensures the perfect showering experience every single time.

Statement™ & Anthem™ Showering Collections.

The Evolution of Showering

The Statement showering collection paired with Anthem valves and controls features unexpected designs and indulgent spray options. The versatile portfolios are meticulously crafted, offering endless opportunities to create your ideal showering experience.

Indulgent Sprays, Inspired Forms: Statement Showering Collection

Statement showering pairs thoughtfully crafted designs with signature spray experiences for wholly immersive environments that drench the body and relax the mind.

Engineered to Be Extraordinary: Anthem Mechanical Valves and Controls

Acting as the control center for up to six outlets in the shower, the Anthem collection enables complete command over temperature, volume, spray experiences, and more in a mechanical thermostatic control.

SHOWERING TAPWARE

A Catalyst for Change

Showering Technology that Delivers More Water for Less

Advanced water technology means we can all indulge in a drenching, luxurious, all-enveloping shower safe in the knowledge we are using less water than ever.

Katalyst™ technology introduces 2.2 litres of air into every 9.5 litres of water creating larger, fuller water droplets that retain heat longer.

The unique patented technology of Katalyst™ results in a better cleaning and hair rinsing performance – and an overall indulgent, luxurious experience. And while the technology is high performance there are no visible changes to the showerhead's exterior and no extra noise.

Katalyst air-induction technology

KOHLER's Katalyst air-induction technology delivers an indulgent irresistible experience by infusing air into the water for bigger, warmer and more voluptuous water droplets capable to embrace your body like an invigorating rainforest waterfall.

Bigger drops

The advanced Katalyst air-induction technology maximizes the combination of air and water by infusing 60% more air to generate bigger water drops for enhanced body coverage and comfort.

Warmer water

The larger air-infused water drops offered by Katalyst air-induction technology retain heat longer, ensuring up to a half degree warmer temperature than conventional showering products.

Optimised spray

Multiple Katalyst air-induction products also feature Racetrack technology, a patented internal waterway system that provides a consistently powerful full-coverage water spray while reducing wasteful overspray.

Rain Duet Dual Renew Column – Round Showerhead

Features

- Direct connection shower column
- Dual check valve
- Suitable for mains pressure
- WELS Rating: 3 Star, 8 litres/min

Includes

- 200mm round Katalyst rainhead and Renew 3-function handshower

RRP: **\$1059**

Code: 24581T-E-CP

Sustainability Initiatives

Waste Equals Opportunity.

KOHLER announced its Net Zero 2035 policy in 2008 – a commitment to send no solid waste to landfills, reduce water usage each year and offset 100% of its greenhouse gas emissions, all by the year 2035.

WasteLAB

In 2013, at the company's annual Innovation for Good event, the idea for the KOHLER WasteLAB was conceived.

This initiative initially focused attention on its landfill-bound pottery cull – essentially broken pieces from its toilet-making process – and how it could be re-purposed into something both beautiful and useful.

Ann Sacks, visionary tile designer, came on board and together the two brands created the Crackle Collection

After the clay is pressed, WasteLAB artisans hand-cut each tile, remove the excess and apply an interactive glaze.

The result is a delicate crackle glaze and deep, rich colour in a variety of tile shapes and sizes.

The KOHLER WasteLAB is currently exploring ways of recycling spent foundry sand, waste glaze and enamel powder and foundry dust that is made up of fine particles of sand, coal, clay, grinding dust and rust.

Producing Energy

Looking to alternate energy sources will help us reach our goal of NetZero greenhouse gas (GHG) emissions by 2035. One such source is solar energy.

We have facilities all over the world. Our Spartanburg, South Carolina, facility averages 225 days of sunshine each year. More than 4,000 panels produce 1,000 kilowatts of power for the Spartanburg plant. Thanks to the panels, we can reduce the amount of power supplied by our local utility by nine percent.

In Beijing, China, nearly 650 solar panels generate 170,000 kilowatt hours of energy per year.

The electricity needs of all of KOHLER's US and Canadian operations will be met by wind farms in Kansas.

Known for its open plains and strong winds, Kansas is an ideal location for generating wind energy.

We're also investing in energy-efficient kilns, heat recovery systems, and several solar installations.

Safe Water

One-third of the world's population lives without safe water, a situation KOHLER finds totally unacceptable. The company partnered with the Bill and Melinda Gates Foundation's Safe Drinking Water Campaign to develop a ceramic water filtration system called KOHLER Clarity.

Each Clarity unit filters out more than 99% of bacteria and protozoa, providing up to 40 litres of safe water each day – enough clean drinking water for a family of four. Given the incidence of water-borne illnesses can be reduced by 45 per cent through safe drinking water – and safe storage – the KOHLER Clarity is a life-changing development.

The KOHLER Clarity units are lightweight and easily transportable with low-cost replaceable filters that can clean up to 5000 litres of water. These units have already helped countless numbers of people in many developing countries.

1873

Kohler Co. founded

John Michael Kohler, 29, an Austrian immigrant purchased a small local foundry. Originally the foundry manufactured agricultural implements and ornamental iron pieces.

1883

Horse trough to bathtub

John Michael Kohler takes a horse trough, heats it up to 925°C, covers it with enamel powder and furnishes it with four legs and ornamental feet, to serve as the first KOHLER bathtub.

1900

Innovative enamelware

KOHLER production of innovative enamelware – baths, pedestal basins, toilets, urinals and drinking fountains – begins and soon comprises most of the company’s business.

1926

Introducing tapware

KOHLER begins manufacturing tapware to coordinate with fixtures. In 1927, KOHLER produced enameled bathtubs and vitreous china toilets and basins in matching pastel colours – an industry first.

1929

Exhibit at New York Met

KOHLER black plumbing fixtures are exhibited at The Metropolitan Museum of Art in New York City.

1965

The Bold Look of KOHLER

Launch of THE BOLD LOOK OF KOHLER, an extensive advertising campaign and array of exciting new products in vivid accent colours.

1985

Artist Editions

Inspired by decorated plumbing basins created by resident artists in the company pottery, KOHLER introduces Artist Editions, a portfolio of surface-decorated basins that make a striking statement.

2000

Gracious living

Sharing the philosophy of gracious living with the world, the company expands beyond the United States into Europe, Asia and Australasia.

2005

Purist Hatbox launches

With its clean minimalist design, the Purist Hatbox toilet opens the door to a new era of possibilities for making design statements in the home.

2006

Nature’s Chemistry

KOHLER’s Nature’s Chemistry basin collection exhibits a craftsman’s skill in the use of glass, stone and bronze, to embrace the raw, elemental qualities of natural materials, resulting in fully functional and visually stunning works of art.

2008

Launch of Karbon

KOHLER continues to lead in design, inspiration and innovation with the introduction of the Karbon articulating kitchen mixer tap, garnering global interest.

2011

Numi marks new era

KOHLER’s most advanced toilet, Numi launches globally. From its striking form and features to its unrivaled water efficiency, the Numi toilet marks a new standard of excellence in the bathroom.

2015

Behold the Future

KOHLER launches Veil, an ‘intelligent’ integrated toilet with bidet. Meticulously designed, Veil offers stunning contemporary lines and the ultimate in individual comfort.

2023

150 years of KOHLER

KOHLER celebrates 150 years of cutting-edge design. 2018 marks the unveiling of technology innovation, KOHLER Connect, a new platform that enhances the KOHLER product experience.

2035

Environmental Sustainability

KOHLER is committed to reduce our carbon and solid waste footprint by 3% annually to achieve NET ZERO by 2035. We are also developing innovative energy and water saving products and helping people to take action.
