Nominal Flow Rate: 6.0 L/m

Notes:

Due to its deep body (min.79mm), ensure that enough cavity depth is decided & preserved before the rough-in of body spray and related plumbing.

Installation notes:

1. All dimensions are in millimeters.
2. Optimum working pressure 300 ~ 500 kPa.
3. Inline filters should be used to protect tapware from debris that may be present within the plumbing.
4. All installations should comply with local plumbing codes and the relevant requirements of AS/NZS3500.
