GRANDE™

RIMLESS TOILET SUITE

LEADING IN HYGIENE

Since hygiene and ease of cleaning are major toilet concerns, KOHLER introduces Grande, with rim-free technology for guaranteed hygiene and easy, effortless, day-to-day care.

The secret is an ultra efficient flush system, a special interior pan design that's very smooth and rim-free so that every nook and cranny is accessible.

Comfort for everyone who believes in maximum hygiene.

LEADING IN DESIGN

Grande's seamless, smooth pan delivers an industry-leading straight skirted toilet with a flawless finish. This premium, understated suite will perform equally well in master bathrooms and ensuites, completing any interior design aesthetic.

Grande is suitable for new builds as well as retrofit as it has back and dual side entry for water feed.

- Multi-entry water feed: top left rear and dual side entry option
- P-trap set out: 185mm
- S-trap set out: 90mm – 160mm (includes vario pan connector); Optional 160 – 230mm (long vario pan connector not included)
- WELS Rating: 4 Star dual flush 4.5/3L

RIMLESS TECHNOLOGY

A rimless bowl makes cleaning easy as it gives total access to the space where germs accumulate and can grow. Removing the rim provides all-out cleanliness.

EASY SEAT REMOVAL

The Vertical Quick Release (VQR) seat quickly detaches with a 'one-handed' lift, for rapid and easy cleaning. No need to touch the pan or seat mechanisms.

BREAKTHROUGH PAN SHAPE

Specially designed pan enables water to flow around the whole bowl to the front centre, to minimise splashing.

EXCEPTIONAL WATER COVERAGE

Smooth interior also enhances water flow, preventing scale and bacteria growth.

WM-022014

ERGONOMIC COMFORT

The semi French-curve seat provides ultimate comfort and positions the body over the drop zone.

POWERFUL FLUSH

Grande provides an efficient flush performance. Water is delivered from the rear via two side sprays and four centre sprays ensuring optimal bowl coverage.

MINIMAL SPLASH

An effective and controlled flush reduces splashback to a minimum.

INNOVATIVE DESIGN

This industry leading design has been engineered to deliver a smooth exterior, straight skirted toilet with a flawless finish.

AESTHETICALLY PLEASING – INSIDE AND OUT

It not only looks good on the outside – it has straight-forward uncluttered lines on the inside, too.

GRANDE™

RIMLESS TECHNOLOGY

LARGE 'DROP ZONE'

The 'Drop Zone' is an industry term for the area that waste will fall into according to the combined design of the pan and the shape and position of the seat.

The Grande 'Drop Zone' and waterline have been perfectly positioned to ensure minimal marking of the pan, and the key areas of the trap of the pan are covered by water to further reduce marking and minimise odour.

HIGH WATERLINE

The pan trap has a high waterline ensuring the efficient flush all customers expect from KOHLER as well as reducing potential marking and odours.
